What is this product?

Type: Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives:

The objective of this Sub-Fund is to track the performance of MSCI Europe Growth Index, and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The anticipated level of the tracking error, under normal market conditions is indicated in the prospectus of the Sub-Fund.

The Index is a Net Total Return Index : dividends net of tax paid by the index constituents are included in the Index return.

MSCI Europe Growth Index is an equity index representative of leading securities traded in the markets of the European developed countries (as defined in the index methodology) representing growth securities.

More information about the composition of the index and its operating rules are available in the prospectus and at: msci.com

The Index value is available via Bloomberg (MSGEUNTR).

The Sub-Fund will apply a Direct Replication methodology to achieve exposure to the Index, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index.

The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.
