What is this product?

Type: Units of AMUNDI MSCI WORLD CLIMATE PARIS ALIGNED UMWELTZEICHEN UCITS ETF, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The product has a duration of 99 years. The Management Company may dissolve the product by means of liquidation or merger with another product in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): International equities

Objectives: By subscribing to Amundi MSCI World Climate Paris Aligned Umweltzeichen UCITS ETF you are investing in a passively managed UCITS whose objective is to replicate as closely as possible the performance of the MSCI World Climate Change Paris Aligned Low Carbon Select strategy index (the "Strategy Index") regardless of whether it experiences a positive or negative development. The maximum tracking error objective between the growth of the net asset value of the Fund and that of the Strategy Index, under normal market conditions, is specified in the Fund's prospectus. The total net return Strategy Index (i.e. accumulating interest), net dividends reinvested, denominated in US dollars, is calculated and published by the index provider. You are exposed to the currency risk between the currencies of the equities comprising the Strategy Index and the Fund's currency. You are not, however, exposed to currency risk between the currency of the Strategy Index and the currency of the Fund. More information on the composition and operating rules of the Strategy Index can be found in the prospectus and on msci.com. The Index is available via Bloomberg (MXWOPCNU). To replicate the MSCI World Climate Change Paris Aligned Low Carbon Select Strategy Index, the Management Company applies a "passive" type of management using the direct replication method which consists of investing in financial securities that are part of the MSCI World Climate Change Paris Aligned Low Carbon Select Strategy Index in proportions that are extremely close to those of the Index. To generate additional yield, the Fund may make collateralised temporary purchases and sales of securities. The UCITS has a greenhouse gas emission reduction objective within the meaning of Article 9 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the "Disclosure Regulation"). The UCITS is subject to a sustainability risk as defined in the risk profile in the prospectus.

Intended retail investors: This product is intended for investors with a basic knowledge and/or no or limited experience of investing in funds, who are seeking to increase the value of their investment over the recommended holding period and who are able to bear a loss of up to the full amount invested. The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: The Fund's units are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade units during trading hours. Only authorised participants (e.g. selected financial institutions) can trade units directly with the Fund on the primary market. Further details are provided in the Fund's prospectus.

Distribution Policy: In accordance with the prospectus, income and capital gains from sales may be capitalised or distributed at the discretion of the Management Company.

More information: Further information regarding this product, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management, 91-93 boulevard Pasteur, 75015 Paris, France. The net asset value of the product is available at www.amundi.fr

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the AMUNDI MSCI WORLD CLIMATE PARIS ALIGNED UMWELTZEICHEN UCITS ETF prospectus.

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested.
