## What is this product?

**Type:** Shares of a sub-fund of MULTI UNITS FRANCE, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of a SICAV.

**Term:** The product has a duration of 99 years. The Management Company may dissolve the product by means of liquidation or merger with another product in accordance with legal requirements.

**AMF Classification ("Autorité des Marchés Financiers"):** Not applicable

**Objectives:** The Sub-fund is a passively managed index-based UCITS.

The Sub-fund's objective is to be inversely exposed with x2 daily leverage to the daily performance of the Italian government bonds market with maturities of between 8.5 and 11 years, of which the "Long-Term Euro-BTP" futures contract is a representative indicator, by replicating, both upwards and downwards, the performance of the Solactive BTP Daily (-2x) Inverse index (the "Benchmark"), denominated in euro (EUR), and representative of a sales strategy with a leverage of two on the Italian government bonds market while minimising the tracking error between the Fund's performance and that of the Benchmark.

The expected level of the Tracking Error under normal market conditions is indicated in the Fund prospectus.

Over a period of one working day, any appreciation in the value of the Long-Term Euro-BTP futures contract shall lead to stronger depreciation of the net asset value of the Fund, meaning that investors will therefore not benefit from the appreciation in the value of the Long-Term Euro-BTP futures contract.

However, for a period greater than one working day, due to the daily leverage reset conducted in the Benchmark, the performance of the Fund will not be equal to double the inverse of the performance of the Long-Term Euro-BTP futures contract and may even follow an identical (i.e. not inverse) development.

The roll cost of forward contracts used in the Benchmark method may negatively and progressively affect the difference between the performance of the Sub-fund and the gross performance of short positions on the aforementioned underlying futures contracts to a significant extent, in particular when making long-term investments in the Fund's shares.

The Solactive website ([www.solactive.com](http://www.solactive.com)) provides more detailed information about Solactive indices.

The Sub-fund aims to achieve its objective by means of indirect replication, namely by entering into one or more OTC swaps (financial futures instruments, "FFIs").

The Sub-fund may invest in a diversified portfolio of international debt securities whose performance will be exchanged against that of the Benchmark through FFIs.

The updated composition of the portfolio of securities held by the Sub-fund is mentioned on the website [amundiETF.com](http://amundiETF.com).

In addition, the indicative net asset value appears on the Sub-fund's Reuters and Bloomberg pages and may also be mentioned on the Sub-fund's stock exchange websites.

**Intended retail investors:** This product is intended for investors with an average amount of knowledge and some experience of investing in funds who are able to bear a loss of up to the full amount invested.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website [www.amundi.com](http://www.amundi.com) and/or in the prospectus).

**Redemption and transaction:** The Sub-fund's shares are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade shares during stock exchange trading hours. Only authorised participants (e.g. selected financial institutions) can trade shares directly with the Sub-fund on the primary market. Further details are provided in the MULTI UNITS FRANCE prospectus.

**Distribution Policy:** As this is a non-distributing share class, investment income is reinvested.

**More information:** Further information regarding this product, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management, 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the product is available at [www.amundi.fr](http://www.amundi.fr)

**Depository:** SOCIETE GENERALE.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for 1 day.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

**Additional risks:** Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

### What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 invested.

\* Secondary market: as the Sub-fund is an ETF, investors who are not Authorised Participants will ordinarily only be able to buy or sell its shares on the secondary market. As a result, investors will pay brokerage charges and/or transaction charges on their transactions on the stock market. These brokerage charges and/or transaction charges are neither charged nor payable by the Sub-fund or the Management Company, but by the investor's own intermediary. Furthermore, investors may also incur bid-ask spreads, i.e. the difference between the price a share may be sold at (ask price) and the price it may be bought at (bid price).

Primary market: Authorised Participants who trade directly with the Sub-fund will pay the transaction costs applicable to its primary market.

## How long should I hold it and can I take money out early?

**Recommended holding period:** 1 day. This period is based on our assessment of the risk and reward characteristics and costs of the Sub-fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 day. You can redeem your investment at any time, or hold the investment longer.

**Order schedule:** Information on the order frequency can be found under "What is this product?". ». Please refer to the section "What are the costs?" for more information on the exit costs. A redemption cap mechanism (known as a "gate") may be implemented by the Management Company. How it would be operated is described in the Prospectus.

In the primary market, the management company may:

- Suspend the redemption of shares, if exceptional circumstances so require, taking into account the interest of investors.
- Manage liquidity risks by (i) limiting the number of shares redeemed for a short period of time, if redemption requests reach a predefined threshold beyond which these requests can no longer be executed in the interest of all investors ("**Redemption Cap**"), and (ii) applying anti-dilution levies to the Sub-fund to offset or reduce portfolio restructuring costs for the remaining investors.

On the secondary market, investors will generally be able to sell their shares on the relevant stock exchange. Additional details can be found in the prospectus.

## How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to [complaints@amundi.com](mailto:complaints@amundi.com)

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website [www.amundi.fr](http://www.amundi.fr).

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
